MARYLAND STATISTICAL ABSTRACT

1984-85

Department of Economic and Community Development

ACKNOWLEDGMENTS

The Maryland Statistical Abstract is published every other year by the Maryland Department of Economic & Community Development. The 1984-85 edition was supervised by IRENE TASHLICK. ALLAN EDIDIN, KAREN LEAF, and PAMELA TAYLOR provided valuable services in collecting and organizing data. WENDY STEWARD was responsible for clerical operations, and she was assisted by MIRIAM BUTLER and CECELIA CLARK.

We thank the many contributors to this volume. Notes below each table credit its sources. Wherever private sector sources are indicated, permission to use such material should be obtained from the cited source.

Office of the Secretary 2525 Riva Road Annapolis, Maryland 21401 301/269-3174

December 15, 1983

The Honorable Harry Hughes
Governor of Maryland
State House
Annapolis, Maryland 21404

Dear Governor Hughes:

I am pleased to submit to you the 1984-85 edition of the Maryland Statistical Abstract. This Department prepares and publishes this document as part of its continuing effort to maintain, on as current a basis as possible, a comprehensive data base on which sound decisions can be made to enhance the well-being and quality of life for all Maryland residents.

This publication provides a statistical record of all aspects of the State of Maryland. Various local, state, and federal agencies cooperated in contributing specific data unique to their operations. We have in one reference source the relevant information on residents of Maryland, trends and changes in population, incomes and employment in the Maryland economy, government receipts and expenditures, agriculture, natural resources, politics, and other facets of Maryland living.

We believe this edition to be the most complete compendium of state data yet produced in Maryland. The detailed data from the 1980 U.S. Census just recently available are included in summary tables. We provide statistics on prior years as references for current Maryland activity. We also include comparable summary data for other states in the introductory section of this publication, again to facilitate comparisons of relative change and provide a perspective for Maryland.

Great care has been taken to ensure the usefulness and accuracy of this publication. As with previous editions, this report has benefited from suggestions and comments from interested users. We anticipate continuation of such support as we commence our research and statistical efforts for the next edition of the Maryland Statistical Abstract.

Sincerely,

Hans F. Mayer

Hans F. Mayer
Acting Secretary

STATE RANKINGS OF SELECTED INDICATORS CONTD.

SOURCE NOTES

Indicator	Source
July 1, 1982 Population Estimate:	U.S. Department of Commerce, Bureau of the Census, State Population Estimates: Revised Methodology for the 1980s and Illustrative Estimates, Series P-25 release, September 13, 1983.
1990 Population Projections:	U.S. Department of Commerce, Bureau of the Census, Current Population Reports, Series P-25, No. 937, issued August 1983.
Age 65 and over, 1980 Population:	Derived from data from the U.S. Department of Commerce, Bureau of the Census, Current Population Reports, Series P-25, No. 930, issued April 1983.
Age 15-19, 1980 Population:	Derived from data from the U.S. Department of Commerce, Bureau of the Census, Statistical Abstract of the United States, 1982-83 edition.
Total Land Area:	U.S. Department of Commerce, Bureau of the Census, Statistical Abstract of the United States, 1982-83 edition.
1980 Population Per Square Mile:	U.S. Department of Commerce, Bureau of the Census, Statistical Abstract of the United States, 1982-83 edition.
1982 Total Personal Income: and 1982 Per Capita Personal Income:	U.S. Department of Commerce, Bureau of Economic Analysis, Survey of Current Business, August 1983.
1982 Consumer Spendable Income:	Standard Rate and Data Service, Inc., 1-1-83 Consumer Market Data.
1982 Civilian Labor Force(1):	U.S. Department of Labor, Bureau of Labor Statistics, Employment and Earnings, May 1983. (1) State figures will not add to the U.S. total shown (obtained from the national data series) because the State estimates are arrived at independently. (2) In cases of ties in rates, States were ranked alphabetically.
1982 Unemployment Rates(2)	
1982 Total Nonagricultural Payroll Employment(1)	
1982 Average Weekly Earnings in Manufacturing	

(continued on following page)

STATE RANKINGS: SOURCE NOTES CONTD.

1978 Value Added by Manufactures:	U.S. Department of Commerce, Bureau of the Census, 1978 Annual Survey of Manufactures, M78(AS)-6. (Latest data available for States. The 1982 Census of Manufactures is now being processed and should be available during the summer 1984.)
1982 Farm Marketing Receipts:	U.S. Department of Agriculture, Economic Research Service, unpublished data.
1980 Active Non-Federal Physicians Per 100,000 Population:	U.S. Department of Commerce, Bureau of the Census, Statistical Abstract of the United States, 1982-83 edition.
1980 Scientists and Engineers Per 100,000 Population:	Derived from data from the National Science Foundation, Surveys of Science Resources Series, U.S. Scientists and Engineers 1980, NSF82-314.

Worcester	30,889	22,593	8,100	196	24,442	16,397	8,017	28	6,447	26.4

*The revised total for the State is 3,923,897. The revisions are not available by race at the county level.

Note: Differences between 1980 and 1970 Census counts by race seriously affect the comparability for "White" and "Other" populations. A much larger proportion of the Spanish origin population in 1980 than in 1970 reported their race as "Other". Also, in 1970, most persons who marked the "Other" category and wrote in Mexican, Venezuelan, Latino, etc. were reclassified as "White". In 1980, these persons remained in the "Other" category. (Appendix B note in Final Report PC 80-1-B22 MD).

(1) Includes General Hospitals, Chronic Disease Hospitals, Mental Institutions, Tuberculosis Institutions, hospitals in Penal Institutions and Special Hospitals.

(2) Includes Nursing Homes, Intermediate Care Facilities, Domiciliary Care, and Residential Treatment Centers for Emotionally Disturbed Children and/or Adolescents.

(3) Data concerns the number of physicians by practice address as registered with the Maryland Board of Medical Examiners (latest information available: 1980 and 1981 periods). Totals include number for which county is unknown. Primary care specialties included are Family & General, Internists, Pediatrics, and Obstetrics/Gyn.

Sources: Maryland State Department of Health and Mental Hygiene, Division of Licensing and Certification, Directory of Acute General Hospitals and Special Hospitals, January 1983; Directory of Licensed Facilities, December 1982.

The Medical and Chirurgical Faculty of the State of Maryland, Characteristics of Physicians in Maryland 1980-1981, issued July 1982. Based on data obtained from the Maryland Center for Health Statistics, and the Maryland Board of Medical Examiners. An updated report is due for release during late 1983.

(1) NOTE: THE ANNUAL SURVEY OF MANUFACTURES PRESENTING 1978 ESTIMATES FOR STATES AND SMSA'S IS THE LAST ONE ISSUED (SEPT. 1981) DUE TO BUDGET CUTS. SELECTED DATA (TOTAL EMPLOYEES) ARE AVAILABLE IN THE 1981 ORIGIN OF EXPORTS OF MANUFACTURED PRODUCTS. THE 1982 CENSUS OF MANUFACTURES IS NOW BEING PROCESSED; THE SCHEDULED RELEASE DATE IS FOR THE SUMMER OF 1984.

1977, 1972 1967 and 1963 are census years and are recorded in the Census of Manufactures. All other years represent estimates derived from a representative sample of manufacturing establishments canvassed in the Annual Survey of Manufactures and may therefore differ from results that would have been obtained from a complete canvas of all manufacturing establishments.

(2) Includes: Maryland. Delaware, West Virginia, District of Columbia, Virginia, North Carolina, South Carolina, Georgia, and Florida.

(3) The definition of this SMSA was revised for 1972. Historical data prior to 1972 are based on the old definition. Data tabulated under the new 1972 definition differ by 5 percent or less from 1972 data tabulated under the old definition.

(Continued on following page)

* In the 1977 Census of Retail Trade, an adjustment has been made at the State level in the 1972 "All Establishments" data to reflect the exclusion of nonemployer direct sellers ("direct selling establishments" are shown in "nonstore retailers" category). For the State, this change provides the following reductions from the originally published 1972 figures: Number of establishments - less 4,621; Sales - less $62,000,000.

** Adjusted figure to allow for comparability of receipts of advertising agencies. 1977 Total Receipts reflect commissions, fees and other income of advertising agencies rather than gross billings as in previous censuses.

NO. 104

TRADE ACTIVITY IN MARYLAND, NUMBER OF ESTABLISHMENTS AND TOTAL SALES OR RECEIPTS: 1977 and 1972 (CONTD)

---

(1) Total Sales includes sales tax and finance charges in 1972 but not in 1977.

(2) Department stores data includes sales from catalog order desks.

(3) Includes liquor; antique and second hand; sporting goods and bicycle; jewelry; fuel and ice; florists; cigar and other retail stores not elsewhere classified.

(4) Includes mail order houses; merchandising machine operators and direct selling establishments excluding nonemployer direct sellers.

(5) Includes amusement and sporting goods; books, periodicals and newspapers; farm supplies; jewelry, diamonds and precious stones; art goods and advertising specialties and other products.

* In the 1977 Census of Retail Trade, an adjustment has been made at the State level in the 1972 "All Establishments" data to reflect the exclusion of nonemployer direct sellers ("direct selling establishments" are shown in "nonstore retailers" category). For the State, this change provides the following reductions from the originally published 1972 figures: Number of establishments - less 4,621; Sales - less $62,000,000. A similar adjustment at the county level, however, is not available. Therefore, the county data, as shown, will total to the State figures published in the 1972 Census of Retail Trade.

(1) For week including March 12.

31.	State and local government	4,263	8.2	3,731	8.5	14.3

---

[a] Total personal income less farm earnings (labor and proprietors' income) equals nonfarm personal income.

[b] Earnings (labor and proprietors' income) consists of wage and salary disbursements plus other labor income plus proprietors' income.

[c] Personal contributions for social insurance are implicitly included in the estimates of earnings (labor and proprietors' income) by type and industry. However, they are not included in personal income and are therefore subtracted from earnings in computation of personal income.

[d] Includes the capital consumption adjustment for rental income of persons.

[e] Includes the capital consumption adjustment for nonfarm proprietors.

[f] Includes fishing, hunting and trapping, and wages and salaries of U.S. residents working for international organizations.

---

[*] Personal income includes transfers - payments not resulting from current production - from government and business. Transfer payments consist of:

(1) income maintenance: Federal and State and Local direct welfare (including supplemental security income payments), food stamp payments, and payments made through several other relief programs.

(2) unemployment compensation: payments to unemployed workers through State, Federal and railroad unemployment insurance programs.

(3) retirement and other: retirement and disability payments made through the social security programs and through railroad, military, and Federal civilian retirement programs; Medicare; educational assistance to veterans and others; and miscellaneous transfers, such as business payments.

[**] Does not include Alaska and Hawaii.

[#] The 1982 estimate includes a very large disbursement of State oil revenues to Alaska's residents. This "permanent fund dividend" payment adds $331 million to Alaska transfer payments and total personal income.

Note on the Poverty Level:

The poverty level is a designation used by the federal government as one means of identifying areas and persons with income levels so low that some economic hardship is likely to be present. Various levels have been determined depending on family size, number of children, and age of the family householder or unrelated individual. The poverty thresholds used in the 1980 census differ slightly from those used in the 1970 census, which took into account the same three factors as well as sex of the family householder or unrelated individual and farm-nonfarm residence. In addition, for the 1980 census the thresholds by size of family were extended from 7 or more persons to 9 or more persons. The income cutoffs are updated each year to reflect the change in the Consumer Price Index. The poverty threshold for a family of four was $7,412 in 1979.

* The Consumer Price Index (CPI) is a measure of the average change in prices over time in a fixed market basket of goods and services. The index measures price changes from a designated reference date - 1967 - which equals 100.0. The change in the index can also be expressed in dollars as follows: for the Baltimore SMSA, the price of a base period "market basket" of goods and services in the CPI for "All Items" has risen from $1 in 1967 to $2.97 in May 1983.

Source: U.S. Department of Labor, Bureau of Labor Statistics, Consumer Price Index for All Urban Consumers, (CPI-U Series).
